ITEM-330: Sale of City Owned Property to the San Diego Redevelopment Agency.
(City Heights Community Area. District 3.)

STAFF'S RECOMMENDATION:

Adopt the following resolution:

(R-2009-680) ADOPTED AS AMENDED AS RESOLUTION R-304796

Declaring that certain real property (Property) located at the intersection of El Cajon Boulevard and 40th Street (i.e., Assessor Parcel Numbers 447-202-31 and 447-202-32), owned in fee by the City, may be sold to the City of San Diego Redevelopment Agency;

Declaring that the Property may only be sold for the negotiated price of \$1,383,550;

Authorizing the Mayor, or his designee, to execute and deliver, on behalf of the City, a purchase and sale agreement, grant deed, and all other agreements and documents necessary and on terms and conditions deemed by the Mayor, or his designee, to be reasonable and in the best interests of the City to consummate the sale;

Authorizing and directing the Comptroller to accept the proceeds of the sale of the Property and deposit them into Route 209 and 274 Cooperative Agreement with the State Fund 38978, which supports CIP-52-274.0 (Balboa Avenue) and CIP-52-209.0 (Rosecrans Avenue).

STAFF SUPPORTING INFORMATION:

In May 2001, the City Council approved a Cooperative Agreement with the State of California (CalTrans) for the transfer of then State Route 209 (Rosecrans Avenue) and State Route 274 (Balboa Avenue) to the City of San Diego. As part of this transfer, the City also accepted seven parcels of excess State land from the State Route 15/40th Street Corridor Project.

The purpose of this acceptance was that upon the eventual sale of the parcels, the proceeds of sale would be deposited into an infrastructure fund specifically for the maintenance of those portions of then State Route 209 and State Route 274.

This action is to authorize the sale of two of the aforementioned properties to the City's Redevelopment Agency. The Agency intends to use the properties in conjunction with several projects in the City Heights community. The City and the Redevelopment Agency had independent appraisals performed for the subject properties. The appraisals had values which differed. Both parties used their respective appraisals as a basis for negotiating a price that reflected site characteristics and the market. The final negotiated price is satisfactory to both parties. Since these properties are needed for a public purpose, San Diego Municipal Code Section 22.0907 does not require a current appraisal therefore, a new appraisal was not necessary.

FISCAL CONSIDERATIONS:

The purchase price of \$1,383,550 will be deposited into State Route 209 and 274 Cooperative Agreement with the State Fund 38978, which supports CIP-52-274.0 (Balboa Avenue) and CIP-52-209.0 (Rosecrans Avenue).

PREVIOUS COUNCIL AND/OR COMMITTEE ACTION:

City Council Resolution R-294888 adopted May 22, 2001, approved the Cooperative Agreement with the State of California and accepted funding for future maintenance.

KEY STAKEHOLDERS AND PROJECTED IMPACTS:

The City's Transportation Department will benefit in receiving needed funding for the maintenance of Rosecrans and Balboa Avenues, and the City Heights Community will receive additional real estate necessary for future redevelopment projects.

ITEM-331: Installation of Streetlights Along El Cajon Boulevard and Streamview Drive - Crossroads Redevelopment Project Area. (College, Mid-City, and Eastern Community Areas. Districts 4 and 7.)

(See Redevelopment Agency Report No. RA-09-10/RTC-09-042.)

STAFF'S RECOMMENDATION:

Adopt the following resolution:

(R-2009-942) ADOPTED AS RESOLUTION R-304797

Finding and determining:

- a) That the installation of the Improvements, consisting of approximately 48 new, standard streetlights along El Cajon Boulevard from 54th Street to 73rd Street, and along Streamview Drive from 54th Street to College Avenue, located within the Project Area, for which the Agency proposes to pay using Agency tax increment funds from the Project Area, are of benefit to the Project Area and the immediate neighborhood in which the Project Area is located, as further described in Section I of the Special Findings attached to the staff report to the Council identified as Report No. RTC-09-042;

- b) That no other reasonable means of financing the Improvements is available to the community (i.e., the City), as further described in Section II of the Special Findings attached to the staff report to the Council identified as Report No. RTC-09-042;
- c) That the payment of Agency funds for the cost of installation of the Improvements will assist in the elimination of blighting conditions within the Project Area, as further described in Section III of the Special Findings attached to the staff report to the Council identified as Report No. RTC-09-042;
- d) That the Improvements are consistent with the Second Five-Year Implementation Plan adopted effective May 19, 2008, for the Crossroads Redevelopment Project pursuant to California Health and Safety Code Section 33490, a copy of which Plan is on file with the Agency as Document No. D-04266, as further described in Section IV of the Special Findings attached to the staff report to the Council identified as Report No. RTC-09-042;
- e) All of the findings set forth herein above are more fully described in the Special Findings attached to the staff report to the Council identified as Report No. RTC-09-042 and incorporated herein by this reference.

Authorizing the Mayor, or designee, to take all necessary actions to secure funding in an amount not to exceed \$580,000 from the Agency to be used toward the cost of installation of the Improvements;

Amending the Fiscal Year 2009 Capital Improvement Program Budget for CIP-52-293.0, Installation of City-Owned Streetlights Project, by increasing the budget amount by \$580,000;

Authorizing the City Comptroller to accept an amount not to exceed \$580,000 from the Project Area tax increment for the purpose of implementing the Installation of City-Owned Streetlights Project and to deposit said funds into Fund No. 30244, Capital Outlay Fund Unallocated Reserve, as an increase in the Fiscal Year 2009 Capital Improvement Program Budget in CIP-52-293.0, Installation of City-Owned Streetlights Project, to be used toward the cost of installation of the Improvements;

Authorizing the City Comptroller to appropriate and expend an amount not to exceed \$580,000 from CIP-52-293.0, Installation of City-Owned Streetlights Project, Fund No. 30244, Capital Outlay Fund Unallocated Reserve, for the purpose of installation of the Improvements;

Authorizing the City Comptroller to transfer back to the Agency any and all funds remaining in the Fiscal Year 2009 Capital Improvement Program Budget in CIP-52-293.0, Installation of City-Owned Streetlights Project, Fund No. 30244, Capital Outlay Fund Unallocated Reserve, upon any cost savings should actual costs of the Improvements be less than \$580,000;

Finding and determining that this activity is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15303(d), in that the Improvements involve the installation of limited numbers of new, small facilities, including street improvements.

STAFF SUPPORTING INFORMATION:

The requested actions will allow for the installation of additional streetlights along El Cajon Boulevard from 54th Street to 73rd Street and along Streamview Drive from 54th Street to College Avenue within the Crossroads Redevelopment Project Area. Approximately 48 new streetlights may be installed along El Cajon Boulevard and Stream view Drive with an estimated total project cost of \$580,000. The cost per light varies because of location characteristics (i.e., trenching, conduit run, pullbox and circuit capacity). The new streetlights will create a safe, walkable environment for College and Eastern Area residents, visitors, and merchants, and help generate economic vitality for this vital commercial/transit corridor and remove blight.

El Cajon Boulevard east of 54th Street to 73rd Street, and along Streamview Drive from 54th Street to College Avenue, has a deficient inventory of streetlights which has contributed to the existence of blight, crime and unsafe lighting conditions within this vital commercial/transit corridor. Agency staff has worked with the community, property owners, merchants, San Diego Police Department, and Engineering and Capital Projects Department to identify locations along El Cajon Boulevard and Streamview Drive that need additional streetlights. The existing street lighting within this portion of El Cajon Boulevard, and Streamview Drive does not meet the current City standard for commercial/transit/residential corridor lighting requirements. This project will design and install approximately 48 additional street lights along El Cajon Boulevard and Streamview Drive and the design work for the potential future installation of pedestrian lights (i.e., acorn type) along both sides of El Cajon Boulevard. Funding for installing pedestrian lights would be provided by others (i.e., Maintenance Assessment District).

This project is consistent with the Second Five-Year Implementation Plan for the Crossroads Redevelopment Project, which is recorded with the Agency as Document No. D-04266 and dated May 13, 2008. The improvements will eliminate and prevent the spread of blight and deterioration, and redevelop the proposed Redevelopment Project Area in accordance with the Redevelopment Plan, General Plan, applicable community plans, and local codes and ordinances.

Pursuant to California Community Redevelopment Law (CCRL) Section 33445, the Agency is legally authorized to pay for the installation of public improvements if special findings can be made by the Agency. Special Findings provide the necessary findings to satisfy the requirements under CCRL Section 33445.

STAFF SUPPORTING INFORMATION:

FISCAL CONSIDERATIONS:

The total estimated project cost is \$580,000, which will be funded by Agency funds. Funding for this project will provide approximately 11 full-time equivalent jobs (i.e., engineering, construction and manufacturing) while providing standard lighting to commercial and residential corridors.

PREVIOUS COUNCIL AND/OR COMMITTEE ACTION:

This project implements the goals and recommendations of the Mid-City Community Plan, the Crossroads Redevelopment Plan and is in conformance with the Progress Guide and General Plan.

COMMUNITY PARTICIPATION AND PUBLIC OUTREACH EFFORTS:

On September 25, 2008, the Crossroads Project Area Committee (PAC) discussed this project and voted 11-0-1 to recommend the Agency fund this public improvement with Crossroad Redevelopment Project tax increment funds.

ITEM-332: Housing Enhancement Loan Program in the College Grove Redevelopment Project Area and the Surrounding Neighborhoods Located in Census Tracts 27.05 and 27.06. (Eastern Community Area. Districts 4 and 7.)

(See Redevelopment Agency Report No. RA-09-02/RTC-09-019 and memorandum from Beryl Bailey Rayford dated 3/27/2009.)

STAFF'S RECOMMENDATION:

Adopt the following resolution:

(R-2009-981 Cor. Copy) ADOPTED AS RESOLUTION R-304798

Making the Findings of Benefit to the College Grove Redevelopment Project Area (Project Area) as more fully set forth in the document titled "Findings of Benefit," attached to Agenda Report No. RTC-09-019 as Attachment No. 2 and incorporated herein by this reference;

Declaring that the Project Area Set-Aside Funds in the amount of \$125,000 identified above shall be utilized for the "College Grove Redevelopment Housing Enhancement Loan Program" within the Project Area or outside the Project Area in the surrounding neighborhoods located in census tracts 27.05 and 27.06 (College Grove Housing Enhancement Loan Program [HELP] Area).

STAFF SUPPORTING INFORMATION:

The proposed College Grove Redevelopment Housing Enhancement Loan Program (HELP) provides one-time only forgivable housing enhancement loans of up to \$20,000 at an annual simple interest rate of 3% to owner-occupants of one- and two- unit properties who live in the College Grove Redevelopment Project Area or outside the Project Area in the surrounding neighborhoods located in census tracts 27.05 and 27.06 and whose gross household income is no greater than 100% of the Median Area Income.

Eligible participants and properties located outside of the College Grove Redevelopment Project Area within the surrounding neighborhoods located in census tracts 27.05 and 27.06 will immediately benefit from the College Grove HELP since there currently does not exist any eligible participants and properties located within the College Grove Redevelopment Project Area. However, there may be eligible participants and properties to benefit from the College Grove HELP Program in the future.

The loans will be used to address interior and exterior conditions of properties to repair health and safety hazards and to rehabilitate, repair and install improvements, including improvements not eligible in existing rehabilitation programs such as fencing, sidewalks, and landscaping. The loans may be increased up to an additional \$5,000 for qualifying energy and water conserving improvements. The loans may be forgiven if the owners maintain residence at their properties for not less than 10 years.

The Agency proposes to enter into an Agreement with the San Diego Housing Commission to administer and provide outreach services for the program within the applicable area of the HELP, which includes the Oak Park community that comprises the two census tracts. The Housing Commission successfully manages similar programs for the City Heights, Crossroads, North Park, and Linda Vista Redevelopment Project Areas. The proposed loan terms are identical to the Crossroads HELP available in census tracts to the north of the Oak Park community.

FISCAL CONSIDERATIONS:

The College Grove Redevelopment Project Area currently has adequate low- and moderate-income housing tax increment set aside funds to allow for the implementation of the College Grove HELP. An additional \$75,000 in College Grove low- and moderate-income housing tax increment set aside funds will be considered as part of an FY2010 budget proposal.

ENVIRONMENTAL REVIEW:

This activity is not a "project" and therefore exempt from CEQA pursuant to State CEQA Guidelines Section 15060(c)(3).

COMMUNITY PARTICIPATION AND PUBLIC OUTREACH EFFORTS:

On December 9, 2008, the Eastern Area Communities Planning Group voted 10-0-0 to recommend an initial investment of \$200,000 of low- and moderate-income housing tax increment set aside funds for the implementation of the College Grove HELP in census tracts 27.05 and 27.06 with loan terms identical to the Crossroads HELP.

KEY STAKEHOLDERS AND PROJECTED IMPACTS (if applicable):

Owner-occupants of one- and two- unit properties within the Project Area or outside the Project Area in the surrounding neighborhoods located in census tracts 27.05 and 27.06 whose gross household income is not greater than 100% of the Area Median Income.

OTHER RECOMMENDATIONS:

Planning Commission on February 19, 2009, voted 7-0 to approve.

Ayes: Naslund, Golba, Griswold, Lydon, Ontai, Otsuji, Smiley

The Eastern Area Community Planning Group has recommended approval of this project.

STAFF SUPPORTING INFORMATION:

REQUESTED ACTION:

Approval of a Conditional Use Permit, Planned Development Permit, Easement Vacation and Tentative Parcel Map for the expansion of an existing 102-bed health care facility into a 288-bed bed facility on a 3.9-acre site located at 4075 54th Street, in the Eastern Area neighborhood of the Mid-City Communities Plan.

STAFF RECOMMENDATION:

Approve the requested actions.

EXECUTIVE SUMMARY:

The proposed project would allow the expansion of an existing health care facility in three separate phase, as described in the attached Report to the Planning Commission dated February 10, 2009. The completed project would increase the number of beds from 102 to 288 and project square footage from 48,610 square feet to approximately 93,761 square feet. The project has been conditioned to ensure that adequate parking is provided during each building phase and the completed project would provide 105 parking spaces where 96 are required by the Municipal Code.

The project site is located in the RM-1-1 Zone of the Central Urbanized Planned District, which is a multi-family zone that would allow up to 57 dwelling units on the site. The Mid-City Communities Plan designates the site for multi-family development at a rate of 11 to 15 dwelling units per acre. The community plan also calls for the location and expansion of health care facilities along 54th Street. Health care facilities such as the proposed project are allowed in the RM-1-1 Zone with the approval of a Conditional Use Permit (CUP). CUP No. 5054, which allowed for the operation of the existing facility, was approved in 1962 and amended in 1968.

On September 30, 1999, the Planning Commission approved CUP No. 98-1097, which allowed a phased expansion of the facility to 288 beds, which was very similar to the current proposal. That approval expired because the applicant did not utilize the permit within the required three-year time period. The applicant has therefore submitted the current CUP request to allow the expansion. When the previous CUP was approved in 1999, the site was within the MR-1000 Zone of the Mid-City Communities Planned District Ordinance. On October 2, 2000, the site was rezoned to the RM-1-1 Zone of the Central Urbanized Planned District and the current expansion request has been reviewed in accordance with those regulations. Although the Planning Commission was the previous decisionmaker, City Council approval is now required because an Easement Abandonment has been included in the project scope.

The proposed expansion would include additions to the existing one-story structure and the construction of a new two-story structure with subterranean parking on the undeveloped southern portion of the site. The new construction has been designed to compliment the existing development, incorporating a neutral-tone stucco finish with brick accents and architectural relief features to reduce the bulk and scale of the structures. The proposed expansion has been designed to be sensitive to the existing surrounding development, which includes multi-family residential development to the west and north, an existing health care facility to the east and a mix of commercial and multi-family residential development to the south.

As described in the attached Report to the Planning Commission dated February 10, 2009, the applicant is requesting the approval of a Planned Development Permit (PDP) to allow deviations from the side yard setback and street frontage requirements. Staff is supportive of the deviation requests because the side yard setback deviation would not adversely affect surrounding development and the street frontage deviation would allow the subdivision of the existing panhandle lot.

The proposed project also includes a Tentative Parcel Map, Easement Abandonment and request to waive the requirement to underground the existing overhead utilities. The Tentative Parcel Map would allow the site to be subdivided into two parcels and would require the approval of a street frontage deviation because the existing site is a panhandle lot that does not contain street frontage. The Easement Abandonment would allow the existing sewer easement at the southern portion of the site to be relocated out of the footprint of the proposed expansion and enlarged to current standards. The applicant's request to waive the requirement to underground the existing overhead utilities would allow an existing power pole near Colt's Way to remain as it serves adjacent properties. Staff believes that the waiver request complies with Council Policy No. 600-25.

Mitigated Negative Declaration (MND) No. 146595, finalized on January 28, 2009, was prepared for this project. The MND includes a Mitigation, Monitoring and Reporting Program (MMRP) which would reduce potential impacts to Historical Resources (Archeology), Paleontological Resources and Transportation/Circulation to below a level of significance.

The Otay Mesa Community Planning Group on January 21, 2009, voted 10-0-1 to recommend approval of the project with no conditions.

STAFF SUPPORTING INFORMATION:

REQUESTED ACTION:

Map Waiver to create 20 lots through the consolidation of various vacant parcels of land, a public right-of-way vacation and easement abandonments for a property located south of Otay Mesa Road, west of Britannia Boulevard, and north of Airway Road within the Otay Mesa Community Planning Area.

STAFF RECOMMENDATION:

Approve Map Waiver No. 612684, Public Right-of-Way Vacation No. 618775, Easement Abandonment No. 618777, and Easement Acquisition No. 618778.

EXECUTIVE SUMMARY:

The project is a Map Waiver to consolidate 21 parcels of land into 20 parcels, vacate a portion of Camino Maquiladora and Colchester Court Public Right-of-Way, and abandon various easements including sewer easements, drainage easements, flood storage easements, and slope easements. The project requires a Process 5 action for the proposed right-of-way vacations and easement abandonments.

The proposed Map Waiver is necessary due to the future construction of State Route (SR) 905's final alignment. In 1997, a Final Map was approved for a 21 lot subdivision for the subject property. The Final Map identified future SR-905 traversing the site. In 2005, Caltrans expanded the SR-905 right-of-way which necessitated additional dedications from the abutting property owners. That action created impacts to several lots, on-site easements and public rights-of-way within the project boundaries. The proposed Map Waiver would adjust and consolidate the lots and required easements.

The property is designated for industrial parks within the Otay Mesa Community Plan and zoned Otay Mesa Development District – Industrial Subdistrict. The site is currently vacant. Surrounding this site to the north is Brown Field Airport and industrial developments to the east. The vacation will include an approximate 400-foot long portion of unimproved Camino Maquiladora and approximately 400 feet of unimproved Colchester Court. Flood storage, sewer, drainage, and slope easements will be abandoned and replaced. A 30-foot access easement is proposed off of Otay Mesa Road.

Regulatory Framework

The Land Development Code establishes a process for approving applications to vacate public rights-of-way and easement abandonments and includes the applicable findings that a decision maker must make to approve the requested vacations. The findings generally establish that there is no present or prospective public use for the right-of-way or easements, either for the use for which it was intended, or any other public use of a similar nature; that the public will benefit from the vacation by the improved use of the land; that the vacation will not adversely affect the applicable land use plan; and that the public facility for which the right-of-way was originally acquired will not be detrimentally affected by the vacation or abandonment.

The proposed vacations are a result of a subdivision redesign. The originally approved rights-of-way and easements are not being removed but rather reconfigured to account for the SR-905 final alignment. The City has determined the current public rights-of-way designs are no longer needed as they are not a part of the current or proposed circulation plan for the Otay Mesa Community Plan.

The proposed consolidation to create 20 parcels from 21 parcels, public right-of-way vacation and abandonment of easements will facilitate future development pursuant to the Otay Mesa Community Plan and the underlying zoning.

FISCAL CONSIDERATIONS:

None associated with this action. All costs associated with the processing for this project are paid by the applicant.

COMMUNITY PARTICIPATION AND/OR PUBLIC OUTREACH EFFORTS:

As described in Section 125.0910(b) and 125.0940(c) of the Municipal Code, a right-of-way vacation may be summarily vacated therefore, a recommendation by the Planning Commission is not required.

The Otay Mesa Community Planning Group voted 10-0-1 on January 21, 2009, to recommend approval of the project with no conditions.
